

We show consideration and **keep our distance**

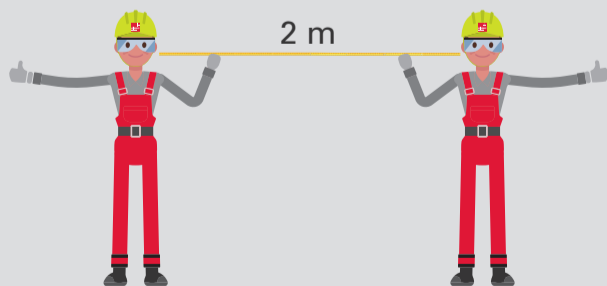

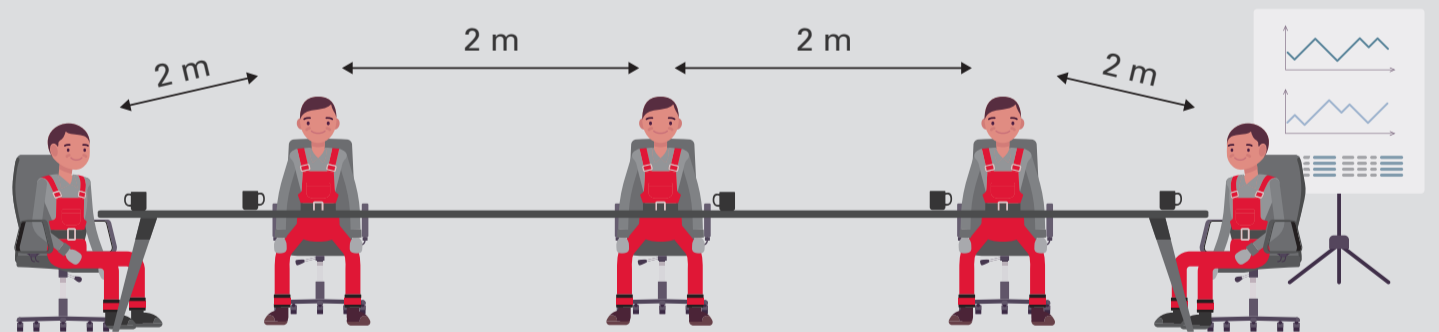

Keep at least 1 metre distance.

We can work at 1–2 metres distance for short periods, providing we are wearing a P2 or P3 dust mask.

2 metres and more is a safe distance.

Make sure the distance between each person is at least 2 metres.

2 metres is farther than you think.
Unfold your ruler to measure.

If more than one person is riding in a car, you must sit as far apart as possible and wear a P2 or P3 dust mask.
